RE: Sun Prairie, WI

Dear Steve:

I've enjoyed working with you and your staff at Galway Companies, Inc. As you know we had been trying to get open in Sun Prairie for some time before your company got involved in the management. We struggled to get things moving with the prior ownership at Prairie Square for a while to no avail. It wasn't until you entered the picture that we were able to move our project forward.

Once Galway Companies got involved you were able to assist the ownership group put together all the pieces to make our project possible. In addition, you were able to help the ownership group remodel the shopping center into a much more vibrant experience for our customers. (a pleasant surprise for us because it was just done and not even required per our lease).

We're happy Galway Companies got involved to manage Prairie Square and look forward to a long and prosperous relationship together.

Thanks so much for your professional assistance!

Sincerely,

Barbara Leslie
President & CEO
